

SeaValue

Values Happiness

Cats and dogs have become very important members of every family in today's society. At Sea Value, **we have spent countless hours perfecting and understanding nutritional requirement for each breed of cat and dog.**

Innovative Pet Food Company:

As Sea Value has become one of world's leading turn-key pet nutrition companies, we are meticulous in all details from sourcing materials - production process - quality control down to each serving of food for your pets. Our pet food are not only tasteful but also proven with scientific approach to help nourishing lives of your beloved furry family members (Sea Value - Values Happiness)

Sea Value PLC. has established its own Pet Research Center to innovate products and services that promote healthy living of your pets.

The center is an international standard laboratory which is equipped with latest technology and apparatus. The knowledge are driven by pet expert, pet nutritionist, veterinarian and food scientist to devise new food formula that serve every needs of customers around the world.

Research center milestone:

- To meet world-class standard
- To be leader in pet nutrition
- To create visionary product

With over 3,000 food formulas and many more to come, pet parents can be assured that Sea Value can provide any nutritions for every need of your pet.

About Us

Sea Value PLC. was founded in March 2004 as a holding company for two leading tuna processors, **I.S.A. Value Co., Ltd.** and **Unicord PLC.** The group is well respected and beloved by customers all over the world by providing outstanding values and excellent quality products for both and human and pet.

Since 2015, **Sea Value PLC.** had invested more than USD 100 million to expand its pet food operations. **Unicord 3 and Unicord 4** are the newest state of the art facilities within Sea Value group focusing on “complete and balance” pet food; and using the most advanced technologies in the production lines. **Unicord 5** would further add more production capacity within Sea Value group to be able to serve increasing demand from customers around the world.

With all these latest investments, **Sea Value PLC.** is one of the leading pet food producers in Asia Pacific region with the revenue of more than USD 900 million.

With more than 40 years of experience, **Sea Value PLC.** is renowned for being one of the world's leading manufacturers of canned tuna and pet nutrition.

The key success factors start from the opened mindset, which allows the team at Sea Value to work closely with all the stakeholders to address every specific needs of all customers. The goal is to constantly optimize relevant operations to better serve our partners and customers.

Our well-trained staffs together with dedicated R&D team possess strong knowledge and expertise in petcare business. This is to guarantee top quality range of products that fit various needs of their beloved canine and feline.

Meet and Exceed Consumer Expectations

At **Sea Value PLC.** we are fully committed to use the human-grade raw materials and high quality ingredients from every part of the world to ensure safe and premium quality products for our consumers. All our products and processes conform to strict international standards and regulations.

In the fast-paced lifestyle where consumers are seeking healthy and enriched food for their pets, our products offer great health benefits for both cats and dogs at every life stage. Our ultimate goal is to ensure each pet lives a happy and healthy life; and grows old together with his or her parents.

Factories and Food Safety Standard

Today, SeaValue PLC. operates 5 processing facilities in Thailand with total capacity for pet food over 300 metric tones/day and export to more than 100 countries around the world.

Food Safety Standard and Certificate

- BRCGS
- GHPs/HACCP
- ISO/IEC 17025
- MSC
- Dolphin Safe

Sea Value PLC., is proud to be one of the founding members of International Seafood Sustainability Foundation (ISSF), which operates under a strict Sustainable Seafood Procurement and Processing Policy. The goal is to bring the fish populations up to the biologically safe levels to ensure continuing viability of fisheries, aquaculture, and the fish processing industries.

We have earned accreditations from the Marine Stewardship Council (MSC) and hold a Dolphin Safe Certificate from

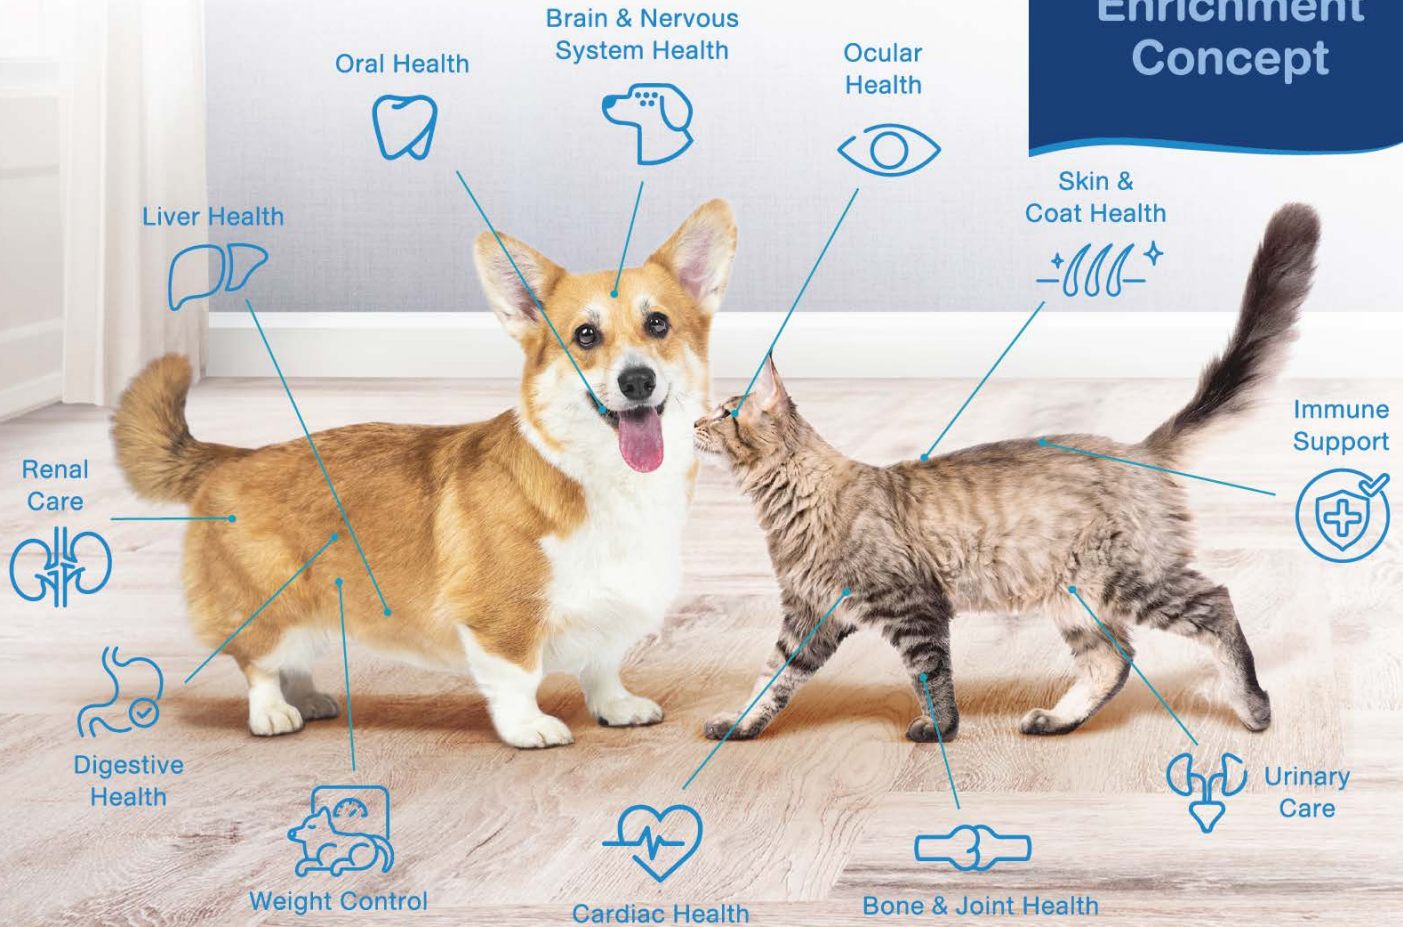

commitment to environmental stewardship sustainable seafood practices.

In recent years, **Sea Value PLC.**, also put a lot of focus on the recyclable packaging material. Our cans are 100% recyclable and can be reused for other purposes. The paper cartons also contain recycled material and the labels also come from the FSC - certified resources. Our goal is sustainable and environmentally friendly

together with our customers.

At **Sea Value PLC.**, we believe that business growth must go hand in hand with environmental responsibility. With this commitment, we aim to reduce more than 189,000 metric tons of carbon dioxide equivalent, which represents a 56% reduction by 2030, and to achieve Net Zero by 2050. This is our promise to create a lasting positive impact on the world.
